EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance: After an updated search, the publication of Brener et al remains the closest known prior art. The Examiner has carefully reviewed the Brener et al document with respect to the newly amended claims, and has considered applicant's comments thoroughly. It is now agreed that Brener et al does not disclose or reasonably suggest the polarization-insensitive integrated wavelength converter set forth in the claims herein, and the Examiner fully concurs with the reasoning offered on pages 23-26 of applicant's amendment submitted on July 16, 2004. Accordingly, the previously applied rejection based upon Brener et al is withdrawn and claims 1-24, 26-60, 62, and 66-98 are allowed. It is noted that applicant's amendment has also obviated the various objections, as well as the 35 U.S.C. § 112, second paragraph, rejection, set forth in the previous Office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

DISCUSSION OF THE CITED PRIOR ART

U.S. Patent 5,946,129 to Xu et al is cited on the attached form PTO-892. This U.S. Patent discloses and claims another polarization-insensitive optical wavelength converter.
